Rick Brun
DIRECTOR

ADDENDUM No. 1

**Sealed Bid # 09-5428
Request for Proposal
PC, Printer, and Peripheral Hardware Maintenance
DATE: July 16, 2009**

The following addendum hereby amends and/or modifies the Proposal Documents and Specifications as issued for this project. All proposers are subject to the provisions of this Addendum.
Proposers shall acknowledge receipt of this addendum.

This Addendum consists of:

- **Minutes of the July 7, 2009 Pre-Proposal Conference**
- **Questions submitted in writing**
- **Attachments A Through E – Revised Bid Forms in Excel format;
Attachments A and B have revisions as noted in Q/A**
- **Equipment Listing by Location – For Information Only**
- **2009 Equipment under Warranty – For Information Only**
- **Pre-Proposal Conference Attendee List**

Include this original form inside your proposal package when submitted.

If you have any questions concerning this addenda please contact: John Flood @ 770-528-8418

All bids must be received before 12:00 (noon) by the Bid Opening date. Bids should be sent/delivered to Cobb County Purchasing Department, 1772 County Services Parkway, Marietta, GA 30008. Bids will be opened at 2:00 p.m. in the Cobb County Purchasing Department, 1772 County Services Parkway, Bid/Meeting Room, 2nd Floor, Marietta, GA 30008.

I acknowledge that I have received Addendum No. 1

Minutes of Pre-Bid Meeting
PC, Printer, and Peripheral Hardware Maintenance
Sealed Bid #09-5428
July 7, 2009

The pre-bid meeting for PC, Printer, and Peripheral Hardware Maintenance was held at the Cobb County Purchasing Department, 1772 County Services Parkway, Marietta, on Tuesday, July 7, 2009. Mark Kohntopp of the Cobb County Purchasing Department called the meeting to order at 2 PM.

Mr. Kohntopp reiterated the following items contained in the Request for Proposal (RFP):

1. Bids are to be turned in to the Purchasing Department **before 12 noon, Thursday, July 23, 2009.** *Late bids will not be accepted.*
2. Bids will be opened at 2 PM on July 23, 2009, at the **Purchasing Department**. The bid opening will be broadcast on Channel 23 and can also be viewed via PC through streaming video on the Cobb County website, www.cobbcounty.org.
3. **One original** and **five copies** of the proposal are required.
4. Bids must be clearly indicated as such on the outside of the mailing package. The label provided by the Purchasing Department should be used. If the label is not used, the same information should be clearly marked on the package.
5. Minutes of the pre-bid meeting will be issued as an addendum to the RFP to vendors on record as receiving bid packages from the Purchasing Department.
6. Any requests for further information must be submitted in writing to the Purchasing Department by **5 PM on Tuesday, July 14, 2009** as indicated on Page 10, Section XXV, Request Additional Information.
7. Written responses to questions submitted will be posted as an addendum on the Purchasing Department's website.
8. Vendors are responsible for ensuring that they have received copies of all addenda issued.

The meeting was turned over to Julia Perren, Client Services Division Manager with the Cobb County Information Services Department. Ms. Perren introduced other I.S. staff present including Dominick Druda, Dawn Filzen, and Judy Sheppard. Ms. Sheppard called attention to a correction needed on Page 25 of the RFP that the **beginning date** for the initial term of the contract will be **November 1, 2009**.

The meeting was opened for questions from vendors.

- Q. The second paragraph of Page 24 states "The selected vendor shall be certified by the manufacturers to cover warranty repairs for the equipment currently under warranty." Some vendors, namely Dell, require a Warranty Enrollment Application to be signed by the customer so we would not be able to provide the certification with our proposal. What do we do in that case?
- A. Cobb County recognizes that this is the case with Dell. Information Services staff will work with the selected vendor to complete and submit the enrollment application.
- Q. Sometimes monitors cost more to repair than to replace. What is Cobb County's policy on replacement?
- A. Cobb County has some funds to replace monitors that are not still under warranty. However, with budget constraints, we cannot guarantee that monitors will be replaced in 3 years, 5 years, or on a

particular schedule. Therefore, vendors should outline their policies on repair versus replacement (refer to Page 32, Section 2.3 Technical Approach).

Q. Page 31, Section 2.1 Corporate Capabilities, states that vendors must provide a reference list of all customers in the Atlanta area. We do not currently have customers in the Atlanta area, but we have in the past. How should we answer that question?

A. Vendors should provide references for customers that are similar in size and structure to Cobb County where the services provided are comparable to those required by Cobb County.

Q. Can Cobb County provide the number of service calls for the last two years?

A. In 2008, 1000 service calls were opened with 32 of them classified as critical. In 2007, there were 1122 incidents of which 16 were critical.

Q. Does Cobb County use a third party maintenance provider now?

A. Yes.

The meeting adjourned at 2:15 PM.

PC, Printer, and Peripheral Hardware Maintenance
Sealed Bid #09-5428
Bid Opening July 23, 2009

Answers to Questions Submitted by Vendors

- Q. For purposes of pricing and completing our proposal, can we please get the attachments (A through E) in electronic spreadsheet form? Can we please get the RFP in Word?
- A. The attachments will be made available in Excel format as part of this addendum. **ALL VENDORS MUST USE THE UPDATED BID LIST PROVIDED IN EXCEL FORMAT AS PART OF THIS ADDENDUM AS CHANGES HAVE BEEN MADE TO SOME OF THE BID ITEMS.** The RFP is available in PDF format only.
- Q. Is all the equipment listed in the attachments out-of-warranty? If so, can we please get a list on in-warranty items and when they will be coming off warranty?
- A. All of the equipment listed in the attachments **is not** out-of-warranty. With this addendum, we are providing a list of **owned** equipment that will still be under warranty as of November 1, 2009, when the contract begins. This list is provided **for information purposes only** as our inventory database is constantly being updated. All **leased** equipment should be considered as still under warranty.
- Q. Please provide reports that identify service call activity by category of equipment. What is the average monthly service call activity by category over the last year? Within the categories, what is the call activity by problem (i.e., hard drive replacement, motherboard replacement, etc.)?
- A. These reports are not available.
- Q. For FY 2008, what was the cost to county from current vendor to provide these services? What part of this total price was for T&M events that were not included in the flat monthly price? What is the flat monthly price of these services?
- A. In FY 2008, the cost to provide maintenance on covered equipment was \$126,555. Of that amount, \$10,366 was for T&M events and consumable supplies. The amount of our current contract varies from month to month based on additions, deletions, and items coming off manufacturer's warranty. It should be noted that the equipment covered by the new contract is subject to change based on bid costs and the budget available.
- Q. In different places on the RFP there are different numbers of copies of the response that are required. Please specify how many copies of the response are required in addition to the original.
- A. One original and five copies are required.
- Q. Who is servicing this equipment today? How long has this vendor been providing these services to Cobb County?
- A. Our vendor since November 2006 is Technology Integration Group (formerly Entre BTG).
- Q. How much did Cobb County pay for these support services over the past year?
- A. See answer provided above.

- Q. Please document which systems are still under warranty and their warranty expiration dates. It appears that the chosen vendor will be responsible for repairs to the systems under warranty, but we will not be able to charge for our services, so it is important that we know how many systems are still under warranty.
- A. Any OEM warranty work performed by the selected vendor will be paid directly through the manufacturer, and no monthly fee will be billed to Cobb County for items still under warranty. When equipment comes off warranty, the selected vendor will continue to cover the equipment at the same level as was in the OEM warranty at an agreed to monthly fee as quoted in the vendor's bid. As discussed above, a list of the equipment still under warranty and the warranty expiration dates is provided with this addendum.
- Q. On page 24 for the items in Attachment B it says: "The selected vendor will need to secure the necessary arrangements with the manufacturers." Why wouldn't the selected vendor just continue to dispatch the current warranty service provider on behalf of Cobb County?
- A. Cobb County issued this RFP to select a warranty service provider. The selected vendor will be responsible for providing service on hardware that is covered under warranty and hardware that is out-of-warranty.
- Q. There are quite a few items on the inventory list that do not include model numbers. For instance, on page 3 there is an item that is described as a Dell KVM Switch. Please provide model numbers for all items so maintenance pricing can be provided for the specific item that Cobb County has.
- A. We have done our best to provide specific information for all equipment, including model numbers. If specific information is not listed, vendors are encouraged to use their best judgment based on their knowledge and experience with servicing similar equipment. **We have completely reworked the section of Attachment A for KVM switches on the Excel spreadsheet provided with this addendum. Please note changes in descriptions, quantities, and the addition to two new line items.**

Please note the following clarifications to the original Attachment A:

Page 3, Attachment A - Okidata Hard Drive is a Western Digital 250 GB External Hard Drive.

Page 12, Attachment A - McData item is a McData Flexport Base SAN Switch, F22.

Page 12, Attachment A – H-P Printer CB532A is a Laserjet M2727NF All-in-one, Qty 1.

Page 12, Attachment A – H-P Printer DCP8060 is a Laserjet M8000 All-in-one, Qty 1.

- Q. How many service calls were opened over the last 12 months on this equipment? How many did the County designate as "critical" and require a 2 hour on-site response?
- A. In FY 2008, 1000 service calls were opened with 32 of them classified as critical. In FY 2007, there were 1122 incidents of which 16 were critical.
- Q. The Gateway laptop model M680G on page 5 shows a quantity of 1,q. Please specify the correct quantity.
- A. The correct quantity is 3.
- Q. How many copies of the response are to be provided? Page 9 of the solicitation states that vendors are to provide one (1) original and six (6) copies, while Page 21 of the solicitation states one (1) original and five (5) copies. Which quantity is correct?

- A. One (1) original and five (5) copies.
- Q. Could you please provide Attachments A-E in Microsoft Excel format?
A. See answer to first question above.
- Q. Can you bid on just printers, scanners, plotters (all the printing hardware)?
A. No.
- Q. Are you going to award this to more than one vendor? Or is it going to be a sole source vendor?
A. Cobb County intends to award a contract to one vendor.
- Q. On page 24 of the RFP it says: "Attachment A lists all the equipment that CCG currently owns. The selected vendor shall be certified by the manufacturers to cover warranty repairs for the equipment currently under warranty. The vendor shall be able to continue maintenance on the equipment after the warranty expires." There are over 50 manufacturers listed in Attachment A. While many of them are major companies that we are certified to do warranty work for, many others are either out of business (Packard Bell) or do not have a formal third party warranty certification process. We understand that you want your warranty work to be done by a company authorized to do the warranty work, otherwise it voids the warranty that you have. However, if we agree to continue to support the product during the warranty period at no charge to you, then the impact of possibly voiding the warranty is not felt by Cobb County. Would you consider changing this language to say that the vendor must be certified to do warranty work for all major manufacturers, or for the manufacturers of the equipment that Cobb County owns more than 10 devices? Otherwise I'm not sure that any vendor will qualify for the requirements of this item in the RFP. Of course, if Cobb County could tell the bidders which devices are still under warranty, then it may turn out that only devices from major manufacturers (e.g. Hewlett Packard, DELL, Panasonic, Gateway, Fujitsu, Ithaca, IBM, Viewsonic, Compaq, Lenovo, NEC, Zebra, Sony, Epson) have been purchased recently enough to still be under warranty and this request for a modification of the requirements could be ignored.
- A. We do not believe that a change to the language of the RFP is needed. A list of **owned** equipment under warranty is provided with this addendum. **All leased PC's should be considered under manufacturer's warranty.**
- Q. On page 32, item 2.3.3 says: "...Vendor will be required to update CCIS Call Center ticketing system (SDE, Magic)." Will we have to purchase our own licenses to SDE or we will have access to the SDE Magic system that CCG is running?
A. Cobb County will provide the license and access to the system by way of VPN.
- Q. Item 2.7 on page 34 says in part: "...Vendor shall provide warranty service that complies with all service specifications of the manufacturer of the equipment for the duration of the contract." Would it be satisfactory for the vendor to take the call for warranty repairs from CCG and then dispatch the OEM to do the repairs? We would remain responsible for the follow-up and the reporting of the repairs to CCG.
A. It would **not** be acceptable for the vendor to take the call and dispatch the OEM to do the repairs. Cobb County issued this RFP to select a warranty service provider. The selected vendor will be

responsible for providing service on hardware that is covered under warranty and hardware that is out-of-warranty.

Q. The Attachment A equipment list includes a Crimpro scanner. We can't find a manufacturer or a model number that matches. Could you provide more information about this device?

A. The Crimpro scanner line item has been deleted on the updated bid list provided in Excel format with this addendum.

Q. Please provide an equipment list for A-E that lists the equipment by location.

A. The equipment is located in facilities located throughout Cobb County. The majority of equipment is located in facilities on or near the Marietta Square complex in downtown Marietta, on County Services Parkway, or in the West Park Government complex located at 736 Whitlock Avenue, Marietta. A list of locations and quantities for **PC's ONLY** is attached for **information purposes only**. Cobb County may relocate equipment at any time during the contract period.

Q. Please provide the name of the incumbent contractor and pricing. Is the equipment list the same as the current contract?

A. See answers given above. The equipment covered by current contract may vary slightly from the items included in this bid as our inventory is constantly changing.

Q. There is no mention of the Annual Warranty Upgrade/Unit found within the RFP except as the last column in Attachments A-E. Can CCIS explain exactly what they expect from a contractor relative to this item?"

A. The Annual Warranty Upgrade/Unit column is defined as the cost to upgrade a manufacturer's warranty to on-site within four hours of when the call was placed maintenance warranty for the manufacturer's warranty period.

On-site maintenance service is already included in the lease cost paid by Cobb County for the leased equipment on Attachment B – Leased PC's. For that reason, the Warranty Upgrade Cost would not apply to the items listed on Attachment B. The column has been shaded in the Excel spreadsheet provided with this addendum and should not be used.

Q. Please provide clarification on the following items as to what they are, i.e. model numbers:

Attachment A - Page 18 of 19	Scanner	Crimpro	DELETED FROM BID
Attachment A - Page 19 of 19	Compaq	Tape Drive DLT	DELETED FROM BID
Attachment A - Page 19 of 19	Tape Drive	Hewlett Packard	DELETED FROM BID

A. Please refer to updated bid list provided in Excel format with this addendum.
