Addendum 1

Questions submitted in writing

Question 1: I recently came across the invitation to bid for about 80 laptops. Managing that number of laptops can be difficult, will you be needing charging carts for them? Our carts are custom-built and configured so that they don't need the laptop adapters or their bothersome cords-- A simple "yes" or "no" would be greatly appreciated.

Answer 1: No, these MDC's will be used in public safety vehicles and will not require charging carts.

Question 2: The Bid 12-5664 had the following specs but, did not list a specific part number. Are you excepting custom builds are do you need a specific part number for the bid?

Answer 2: No, we are not accepting custom builds. The part number is CF-53ASGZX1M.
